2023 MARE NONCONTRACT BREEDING INFORMATION

Thank you for choosing Nebraska Equine Veterinary Clinic for your breeding work. Mares bred at the clinic that are not under contract will be charged per item for services provided. Payment for services provided is expected in full when the mare is released to go home. We recommend a follow-up ultrasound at 14-18 days post breeding to confirm pregnancy and to rule-out twins and again at 30-35 days post breeding to ensure the embryo is progressing normally and has a heartbeat.

Charges that may occur during a breeding cycle include:

- 1) Reproductive Ultrasound \$61.58 per ultrasound with an average of 5-7 Ultrasounds per cycle.
- 2) Artificial Insemination with PSM Evaluation \$55.99 per dose
- 3) Hormone therapy to time breeding and/or ovulation
 - a. HCG \$24.64
 - b. Deslorelin \$73.89
 - c. Lutalyse \$24.64
- 4) Uterine Biopsy \$167 plus shipping fees
- 5) In-house Uterine Culture with Antibiotic Sensitivity \$175
- 6) Uterine flush \$54-\$124
- 7) Uterine treatment/infusion \$46 -\$165
- 8) Caslick procedure \$87
- 9) Twin reduction \$67.19 + cost of medications
- 10) Hormone analysis (Progesterone level) \$61.30
- 11) Sedation \$34 - \$64
- 12) Office Call \$31.90 per visit
- 13) Board \$48 per day

The mare must be **current on all vaccinations** (Eastern and Western Encephalitis, Rhino, Influenza, Tetanus, Rabies and West Nile) prior to being checked into the clinic. If not, these will be administered at check in at an additional **charge of \$121.13**. If the mare is coming from a farm where an active illness is present, the mare owner must inform the clinic prior to the mare being checked in.

It is the mare owner's responsibility to pick up and deliver or arrange pick-up and delivery of semen being transported by airplane counter to counter. If semen arrives after hours there may be an additional after-hours breeding fee. This will be at the discretion of the veterinarian at the time of semen arrival and insemination. The return of the semen container used for semen transport **will be the responsibility of the mare owner**. If the mare owner wishes the clinic to return the semen shipping container, a fee for shipping and handling will be charged.
