2024 MARE BREEDING CONTRACT With STALLION COLLECTION

This document is an arrangement between *Nebraska Equine Veterinary Clinic* and a mare owner defining the charges for breeding a mare to a stallion standing at the clinic. **A single breeding fee (Chute Fee) of \$651.00 per mare** that includes all heat cycles for the breeding season of 2024. This charge applies only to mares that are brought to the clinic for breeding. A mare boarding **charge of \$36.16** will be charged daily. A daily board **charge of \$36.16** or a **day stall fee of \$28.35** will be charged for the stallion.

This single charge will include **all rectal palpations, all reproductive ultrasound exams, the collection and processing of semen, and all artificial inseminations. Ultrasound exams for pregnancy diagnosis at 14 to 18 days of pregnancy and again at 30 to 35 days of pregnancy will be included but additional follow-up pregnancy exams or ultrasound exams are NOT included and will be charged separately.**

This single charge **will not include** any additional veterinary procedures that may be performed based on the needs of an individual mare. An abbreviated list of such procedures that would require additional fees* is as follows:

- 1) Uterine Biopsy
- 2) Uterine Culture with Antibiotic Sensitivity
- 3) Hormone therapy to time breeding and/or ovulation
- 4) Uterine flush
- 5) Uterine infusion/treatment
- 6) Caslick procedure
- 7) Twin reduction
- 8) Hormone analysis (Progesterone level)
- 9) Sedation
- 10) Additional Medications

The mare must be **current on all vaccinations** (Eastern and Western Encephalitis, Rhino, Influenza, Tetanus, Rabies and West Nile) prior to being checked into the clinic. If not, these will be administered at check in at an additional **charge of \$121.13**. If the mare is coming from a farm where an active illness is present, the mare owner must inform the clinic prior to the mare being checked in.

Semen collection requests must be made at least 24 hours prior to the date collection is needed, failure to provide necessary notification time may result in additional emergency charges or the inability to collect the stallion. The stallion owner or manager must be able to provide a tease mare for collection if necessary.

Financial policy regarding payment schedule: You may begin this contract at any time during the 2024 breeding season, but it **will not be retro-active** on any reproductive work done prior to the contract.

The **\$651.00 breeding fee is due at the time the contract is signed and immediately goes into effect.** The remainder of the bill (mare boarding, additional treatments, and shipping expenses) is due at the time the mare is released from the clinic to go home, unless previous arrangements have been made between the owner and the veterinarian or billing manager.

Please fill out the following information and sign indicating that you have read the 2024 Mare Breeding Contract with Stallion Collection and agree to the above information.
